PROFESSIONAL SUMMARY

I am a dynamic and results-driven web developer with hands-on experience in both front-end and back-end technologies. I specialize in creating scalable, user-centric applications and have successfully delivered complex solutions using the MERN stack. My expertise includes designing efficient APIs, building responsive (UIs), and managing databases. Innovative web developer skilled in leveraging cutting-edge technologies to create impactful digital experiences.

EDUCATION

FAST National University of Computer and Emerging Sciences
Bachelor of Science in Computer Science

TECHNICAL SKILLS

- React.js | Next.js
- JavaScript | ES6
- RESTful APIs | GraphQL
- Bootstrap | Material-UI | Tailwind CSS
- Context API | Redux | Redux Toolkit | TanStack Query
- C++ | C# | Python | Git | GitHub | Linux | Assembly | Mongo DB

WORK EXPERIENCE

Associate Software Engineer

Innvo.dev, Faisalabad March 2024 - Sep 2024

- Developed scalable Frontend using React.js, Next.js and NextUI.
- Designed MongoDB databases, demonstrating proficiency in NoSQL structures.

Full-Stack Developer Intern

SBN Tech May 2023 - August 2023

- Built responsive web applications using React.js and Tailwind CSS.
- Utilized Next.js for server-side rendering and efficient routing.
- Enhanced project performance through optimized code and server-side processes.

Front-End Engineer

August 2021 - January 2022

- Developed intuitive user interfaces with React.js and modern front-end frameworks.
- Focused on optimizing performance to ensure a smooth user experience.

PROJECTS

E-commerce Website

- Developed a scalable e-commerce platform using MERN.
- Implemented dynamic product listings, user account management, and shopping cart functionality.

Final Year Project “AI-RiceHarbor App” (Flutter, Firebase, Node.js)

- Built a mobile app using Flutter and Firebase to connect buyers with farmers.
- Leveraged machine learning for accurate rice type recognition and streamlined transactions.
- Provided farmers with tools like seedling guidance to promote sustainable practices.

Todo List Application

- Developed a Todo List application using Next.js, with user authentication and session management.
- Implemented API routes for efficient data handling and user-specific task storage.

Hotel Management System

- Designed a full-featured hotel management system.
- Integrated RESTful APIs for smooth data communication and efficient database management.

CERTIFICATIONS

MongoDB Basics	MongoDB University
Full Stack Development Certification	freeCodeCamp
Web Development for Beginners (Meta)	Coursera
Full-Stack Web Development Learning	Microsoft Learn
